

LUMISHINE

JOICO LumiShine Repair + Color er en komplett fargeserie med ferdigformulerte farger. Håret forvandles fra innsiden og ut med gjennombruddet innen hårfarge, nemlig ArgiPlex Technology.

TONEHØYDE, UNDERLIGGENDE PIGMENTER og KORRIGERING

Table with 4 columns: TONEHØYDE, TONE, UNDERLIGGENDE PIGMENT, KORRIGERER. It maps hair color levels from 10 (Lightest Blonde) to 1 (Black) to their underlying pigments and corrective colors.

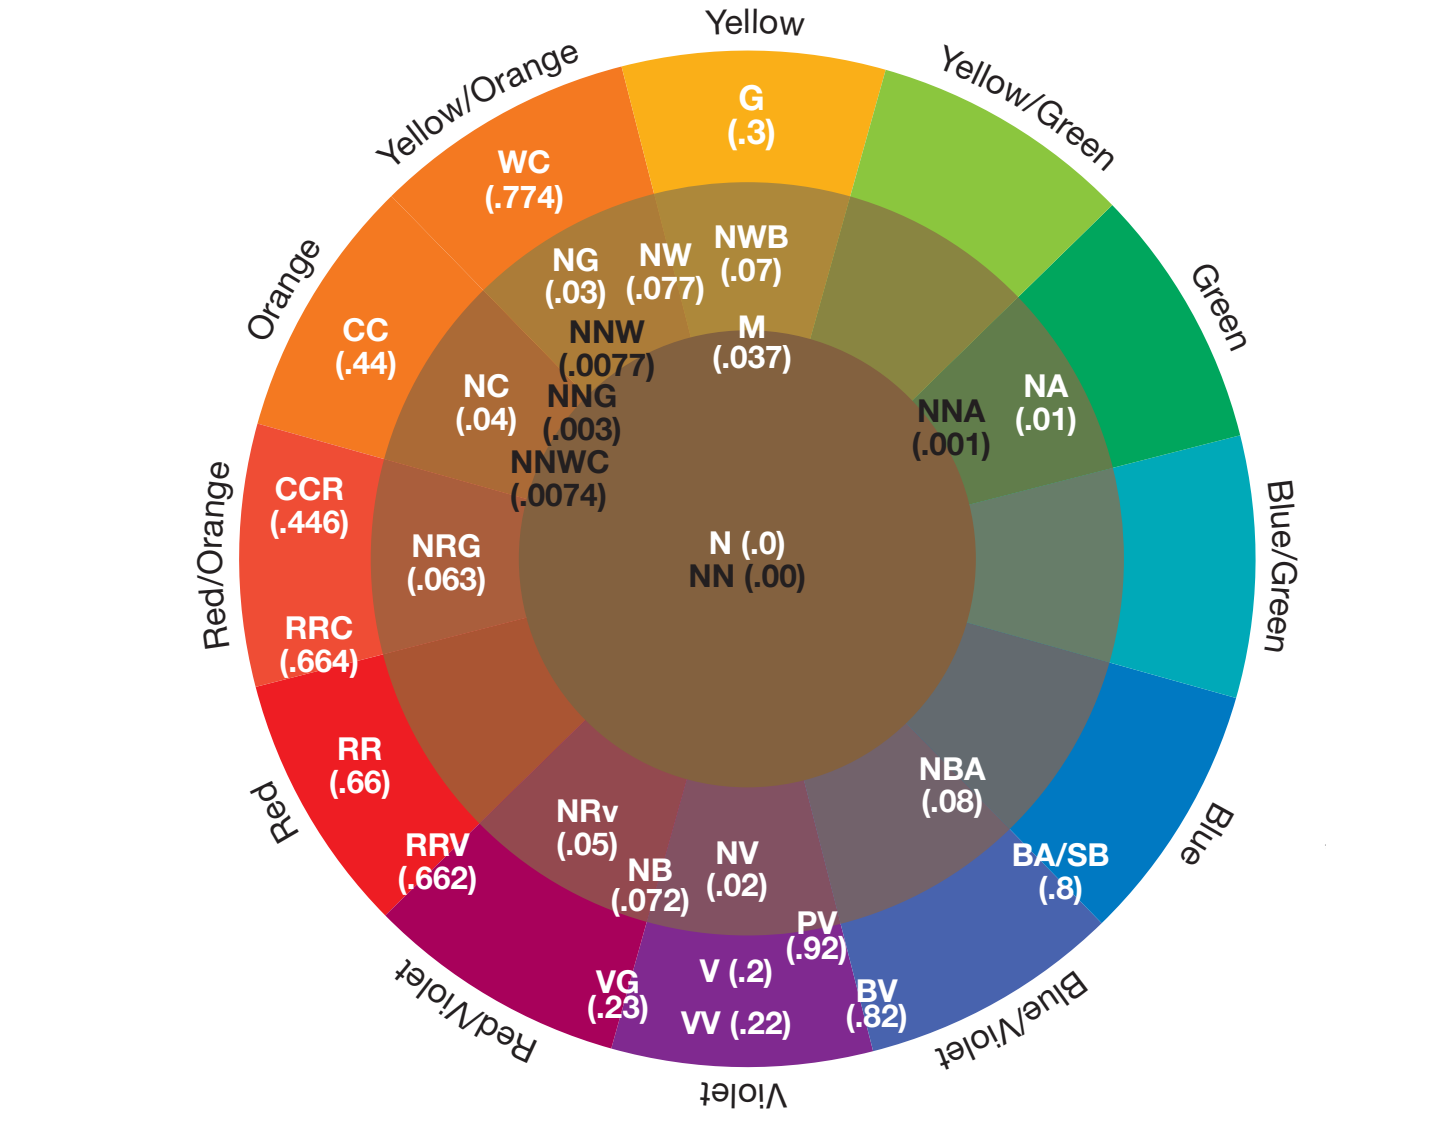

VANNSTOFF - OPPLYSNING OG VIRKETID

Table with 3 columns: DEVELOPER, BRUK, VIRKETID. It details the usage and processing time for different developer volumes (5%, 10%, 20%, 30%, 40%) in conjunction with LumiShine Demi-Permanent Liquid Color or Permanent Crème Color.

FØR- OG ETTERBEHANDLING

Velg mellom DEFY DAMAGE og K-PAK avhengig av hårets tilstand.

Table with 2 columns: FOREBYGGE MOT SKADE, REPARERE SKADET HÅR. It provides a step-by-step guide for hair care, from shampooing with Defy Damage Detox Shampoo to using repair products like K-Pak Color Therapy Shampoo.

PERMANENT FARGE

Table with 6 columns: TONE, 25% GRÅ, 50% GRÅ, 75%-100% GRÅ, VANNSTOFF, VIRKETID. It provides a guide for permanent hair color application, including the amount of developer to use for different shades of gray and the recommended processing time.

LUMISHINE YOUTHLOCK REPAIR + PERMANENT CREME COLOR

Diagram showing the mixing ratio (1:1) and processing time (45 min*) for LumiShine Youthlock Repair + Permanent Creme Color. It also includes a table with TONE, 25% GRÅ, 50% GRÅ, and 75%-100% GRÅ columns.

LUMI10

Diagram showing the mixing ratio (1:1) and processing time (10 min*) for Lumi10. It also includes a table with TONE, 25% GRÅ, 50% GRÅ, and 75%-100% GRÅ columns, and a note about the product's effectiveness.

LUMISHINE REPAIR+DEMI-PERMANENT LIQUID COLOR

Table with 3 columns: BEHANDLING, PÅFØRING, VIRKETID. It provides a guide for the application of LumiShine Repair+Demi-Permanent Liquid Color, including the amount of product to use and the recommended processing time.

*Clear kan enkelt brukes for å lage en mindre pigmentert nyans. For å varme ut pigmentene til en nyansse tilfor 30 ml av ønsket nyansse og så tilfor 30 ml Clear og 60 ml 5 Vol.

LUMIEXTRALIFT

LumiShine Extralift er en lysfargeserie designet for å gi optimal opplysning og lekre blonde nyanser.

Table with 3 columns: HIGH LIFT "XL" NYANSE, BESKRIVELSE, BRUK. It provides a guide for the application of LumiShine Extralift hair color, including the amount of product to use and the recommended processing time.
